

SIGNATURE SERIES TRANSIT SHELTERS

YOUR COMMUNITY. YOUR STYLE. YOUR SIGNATURE.

LOCATION

The city of Carson is located in the South Bay region of Los Angeles, California just 13 miles south of downtown Los Angeles. As a highly population dense suburb of L.A. with over 90,000 residents, quality public transportation and supportive amenities such as bus shelters are crucial.

As of 2021, Long Beach Transit has been providing fixed route bus services for the city of Carson.

PROJECT SCOPE

Tolar Manufacturing Company, a provider of transit shelters and related amenities to the City of Carson since 2016, was recently selected to provide amenities to improve nearly 200 bus stops within the city, including 18 transit shelters, to accommodate the needs of its vibrant community.

Working with City staff, the Tolar team created custom branding on the rear walls of the 11-ft cantilever shelters, some of which contain a revenue-generating media display kiosk.

Each shelter is available with either dusk-to-dawn solar power illumination or with grid-tied LED illumination with the roof batteries and controller in a tamper resistant enclosure within roof beam.

For the City's major hub at SouthBay Pavilion, the Tolar team designed and fabricated high visibility, fully branded 28-ft Signature Sunset Custom Empire (shown above) transit station shelters. Each station shelter features back-to-back media display kiosks, custom Carson-branded perforated rear walls, and large three-dimensional SouthBay Pavilion lettering above the shelter roof line. Two Tolar USC RMS 170 UL-listed solar powered illumination systems power both the media display kiosk for up to six hours after dusk and two hours before dawn, as well as the under roof dusk-to-dawn LED illumination.

All shelters include Mesa benches with seat delineators.

SIGNATURE SERIES TRANSIT SHELTERS

AT TRANSIT STOPS ACROSS AMERICA

(size and design examples)

SIGNATURE VOYAGER MAX LAKE GEORGE, NY
Beautifully designed to embrace the picturesque tourist town of Lake George.

A 62-ft custom axel open canopy shelter with 8-mm bronze twin-wall polycarbonate roof panels with solar illumination. Mesa platform benches with seat delineators, custom passenger information kiosk, and durable baked premium powder coat finish complete the shelter.

CUSTOM SIGNATURE EL SEGUNDO, CA

Modern with a strong statement, this shelter is a great solution as a transportation network designated waiting space in office parks and high-density areas.

This 8-ft custom flat roof shelter features all steel construction, IPE wood slat decorative ceiling, and 1/4" aluminum roof panels offset with brushed stainless steel. Finished in super durable baked powder coat finish.

BRAZOS SIGNATURE AUSTIN, TX

Part of Capital Metro's Coordinated Bus Stop Street Furniture Program delivering functional street furniture of exceptional design quality.

This 12-ft shelter incorporates a radius roof, rolled posts rear wind screen, and branding banner.

SIGNATURE CRESCENT TAMPA, FL

A "Kit of Parts" approach.

These 13-ft bus shelters were created in keeping with Tolar's "Kit of Parts" approach. Available with optional end walls, agency branding, dusk-to-dawn solar powered LED illumination and a SmartLink controller allowing for remote monitoring of the solar performance. Amenities include a Mesa bench with comfortable back rest and seat delineator and 32-gallon trash receptacle.

SIGNATURE SUNSET SAN DIEGO, CA

Three decades designing and fabricating bus shelters, street furniture, and digital solutions.

17-ft advertising shelters with agency branding make a big impact on the streets of San Diego. Passengers enjoy an integrated passenger information display case, Mesa benches, pole mounted trash/recycle bin, and dusk-to-dawn solar illumination in the roof and display case.

CUSTOM VOYAGER SAN LUIS OBISPO, CA

Maximizing passenger amenities for comfort and convenience.

Four 17-ft spoke-style cantilever shelters offer flexible length adjustments to provide maximum shade. Amenities include steel strap benches, low-draw LED lighting, and back-to-back media display kiosks.

CUSTOM SIGNATURE COLUMBIA, SC

Branded shelters in various configurations with minimal unique parts to customize the transit riding experience.

This custom Signature 16-ft shelter is part of a suite of shelters for The COMET. Featuring dusk-to-dawn solar LED illumination, and branded perforated aluminum walls, these shelters were designed with easy installation in mind and a kit of amenities that vary depending on location throughout two counties.

SIGNATURE SUNSET GREENSBORO, NC
State of the art solar powers these city shelters.

This 10-ft shelter is NCDOT PEP approved with its all-aluminum construction and fully welded roof with 3/8-in clear tempered safety glass showcasing highly visible city branding. LED security lighting powered with an RMS50 solar lighting system, including 50W photovoltaic roof mounted panels, provides dusk-to-dawn illumination using UL-listed components. A 7-ft Mesa aluminum frame recycle slat bench provides seating.

SIGNATURE PACIFIC ESPANOLA, NM

Curved translucent roof and walls provide visibility beyond the shelter framing the beautiful surrounding landscape.

This brightly-colored 14-ft shelter comes with a flat advertising kiosk, perforated metal walls for airflow, opal polycarbonate curved roof panels, and a beautiful powder coat finish with easy-to-read branding.
