

SIGNATURE BRAZOS SHELTERS

CURVED ROOFS. STYLISHLY MODERN. DURABLE STRENGTH.

LOCATION

Orlando, famed for its high energy recreational spaces and warm weather, exemplifies Florida's nickname as the Sunshine State. Renowned globally as the home of world-class theme parks, this dynamic city offers more than just thrilling attractions - it's a thriving nexus of arts, culture, and innovation. Its reputation as a premier tourist destination is significantly enhanced by its sophisticated public transport system, which seamlessly connects the lively downtown area with its numerous entertainment spaces, making all the city has to offer accessible to everyone.

Public transportation in Orlando is characterized by a comprehensive network that includes buses, commuter rail services, and shuttles, designed to cater to both residents and international visitors. The LYNX bus service offers efficient, affordable travel options, facilitating smooth transit across the city and beyond. The dedication to creating a vast network of affordable bus solutions underpins the city's commitment to accessibility, ensuring that every

corner of Orlando's sprawling landscape is within reach to anyone who wants to explore.

PROJECT SCOPE

Our Signature Brazos Series transit shelters (pictured) are providing shade and a comfortable place to rest at SunRail Train Station for multi-model traveling residents and tourists alike. In total, 32 shelters provide relief from high temperatures and high advisories that are felt in Orlando and across central Florida during the summer months.

Orlando's assortment of Signature Series shelters is configured to accommodate the needs of every rider. Designed in two sizes, 9-ft and 13-ft, these Signature shelters are configured to accommodate both revenue-generating advertising as well as non-advertising options. Each shelter features a fully welded curved radius roof and open end wall supported by an angled front post along with a perforated metal screen rear wall. Amenities include standard perforated metal benches,

32-gallon steel strap trash receptacles, and solar lighting systems providing passenger security and advertising lighting. All metal components are finished in standard super durable baked powder coat for long lasting sustainability and easy maintenance and are available in custom color finish combinations to reflect the character of the neighborhood communities.

SIGNATURE SERIES TRANSIT SHELTERS

ON THE STREETS ACROSS AMERICA

(size and design examples)

SIGNATURE CUSTOM SANTA ANA, CA

Papel Picado themed shelters bring culture and color to Santa Ana.

Bringing the delicate intricacies of popular "papel picado" Mexican folk art to life, these 41 custom-built 14-ft to 27-ft shelters include rugged steel structures enhanced with colorful acrylic roof panels, perforated benches, and vividly colored wall elements.

SIGNATURE VOYAGER MAX LAKE GEORGE, NY

Beautifully designed to embrace the picturesque tourist town of Lake George.

A 62-ft custom axel open canopy shelter with 8-mm bronze twin-wall polycarbonate roof panels with solar illumination. Mesa platform benches with seat delineators, custom passenger information kiosk, and durable baked premium powder coat finish complete the shelter.

BRAZOS SIGNATURE AUSTIN, TX

Part of Capital Metro's Coordinated Bus Stop Street Furniture Program delivering functional street furniture of exceptional design quality.

This 12-ft shelter incorporates a radius roof, rolled posts rear wind screen, and branding banner.

BUS RAPID TRANSIT GARY, IN

Incorporating public art into BRT lines creates a sense of community in streetscapes across North America.

This highly visible 10-ft totem-style route-branded kiosk is paired with modern yet durable, solar-powered BRT shelters that showcase public art in the rear wall with revenue-generating advertising on the side wall.

SIGNATURE SUNSET SAN DIEGO, CA

Three decades designing and fabricating bus shelters, street furniture, and digital solutions.

17-ft advertising shelters with agency branding make a big impact on the streets of San Diego. Passengers enjoy an integrated passenger information display case, Mesa benches, pole mounted trash/recycle bin, and dusk-to-dawn solar illumination in the roof and display case.

CUSTOM VOYAGER SAN LUIS OBISPO, CA

Maximizing passenger amenities for comfort and convenience.

Four 17-ft spoke-style cantilever shelters offer flexible length adjustments to provide maximum shade. Amenities include steel strap benches, low-draw LED lighting, and back-to-back media display kiosks.

BUS RAPID TRANSIT BOSTON, MA

Nine BRT shelters in five distinctive Signature Sunset models make a modern statement.

36-ft x 7-ft BRT stations with 3/8-in clear tempered glass, station location branding, LED illumination, housing for various amenities, slat benches, and agency branding marker.

SIGNATURE SUNSET GREENSBORO, NC
State of the art solar powers these city shelters.

This 10-ft shelter is NCDOT PEP approved with its all-aluminum construction and fully welded roof with 3/8-in clear tempered safety glass showcasing highly visible city branding. LED security lighting powered with an RMS50 solar lighting system, including 50W photovoltaic roof mounted panels, provides dusk-to-dawn illumination using UL-listed components. A 7-ft Mesa aluminum frame recycle slat bench provides seating.

BUS RAPID TRANSIT CHARLOTTE, NC

Various Tolar-designed shelters greet riders as they begin their travels on BRT lines in their community.

This 16-ft Signature Sunset shelter sits along a streetcar line sporting custom art glass panels unique to each stop location. The shelters feature extra deep roofs, bronze tint heat-formed radius roof panels, wide and narrow end walls for specific location requirements, and electric security lighting in rear beam for passenger comfort.

These styles are representative of product options within this series. Scan the QR code or visit www.tolarmfg.com for additional ideas, options and specifications.
